## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. Due to an internal delay in obtaining all of the Non-Patent Literature cited in Applicant's IDS (filed 9/22/2005 and 10/12/2005), Examiner is unable to return the initialed copies of the IDS with the current Office Action. However, the initialed copies of the IDS will be mailed to Applicant in a separate correspondence.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Examiner is unable to determine the intended scope of the term "gusset", as recited in the independent claims 1, 17 and 20, thereby rendering the claims indefinite.

In claims 1, 17 and 20, applicant sets forth the limitation "at least one gusset joining the top wall and the bottom wall to define a chamber". It is also noted that the Specification (page 7, line 25) identifies the gusset with reference number 103, which appears to be erroneous. It is not clear if the term "gusset" has been used to mean (a) a seam at the junction of the top and bottom walls; (b) a reinforcing structure for the seam; (c) a fastener for securing the cushion to other surfaces; or (d) any other component.

Applicant is requested to provide a clarification and/or a correction.

Art Unit: 3617
